The application used for submitting papers and projects is a room reserved by a teacher for the students where they can individually or in groups submit their homework, case studies, projects or other assignments. Each coursework submission is limited in time and set up for the individual seminars or centrally for the whole course.

The table shows all submission places that have been set up for the courses you attend in the current period. The "Open till" column defines when the coursework submission is closed. In the next column you can see the name of a set of topics and a list of topics you have signed up for and which have been approved by the teacher. A coursework submission is linked to the whole course. In the "Files" column you can see how many files you have entered to the coursework submission. Click on the icon in column "Instructions" to see the instructions entered by the teacher for the coursework submission.

The following table shows the coursework submission open for inserting files. To insert files to a particular coursework submission use the arrow in the Insert files column.
